**The IDEAL Program
Individually Designed Education for Adult Learners**

The IDEAL Program allows students who are unable to enroll in a structured curriculum the opportunity to participate in a program tailored to their schedule and background. Courses are delivered in the online or independent study format and involve a one-on-one academic experience with a faculty member. Students communicate with faculty through a variety of means including face-to-face, phone, or electronically.

Through independent study courses, students in the IDEAL Program have the freedom to complete course work at the time and place that is most convenient for them. It is the perfect choice for students who want to complete their bachelor's degree but are unable to attend traditional classes.

The Programs of Study offered through the IDEAL Program include

- Business Administration: Management Science**
- Sociology**
- Criminal Justice**
- Computer Information Systems**
- Physical Education: Sport Management**
- Bachelor of Applied Science (A.A.S. Degree Required)**
